Powell

Remington

Stanwood

Yorkshire

For centuries, fireplaces have been the heart of the home. Fireplaces have evolved from heating and cooking sources to artistic statement inside the home. Today fireplaces are as common as centuries ago. Many homes feature formal dimensional stone fireplaces as the rooms focal point.

Dimensional stone fireplaces are hand-carved by stone craftsmen to any specifications. The fireplaces highlighted are designs popular with our customers, but not limited to these designs.

Fireplaces can be constructed of materials such as limestone or stone veneers. Natural stone has always been a feature of fireplaces. Stone in and around the fireplace adds permanence and elegance.

***Note:** Natural stone products are likely to show variations in structure, veining, color, and thickness. Photographs provided are to be considered an approximate representation of the product rather than an exact representation of the product which will be provided.*
