Brown Suede is a truly fitting name for this stone which features a very tight-grain with a leathery texture. It's smooth, comforting brown background is accented by black and white flecks of mica.

### **Characteristics:**

Compressive Strength: 27,495

Flexural Strength: 1578.87

Absorption: .22

Density: 163.75

*Note: Physical properties are provided for general comparisons. For specific applications and design engineering please contact your Lang Sales Representative for current ASTM testing data.*

### **Applications:**

Brown Suede is used for a wide range of architectural details, but most commonly for countertops and pedestrian surfaces. This granite is typically available in 3 cm or 1-1/8" thickness for use on kitchen and bath counter surfaces as well as paneled walls such shower stalls. It is also available in 1 cm or 3/8" thick, 12" x 12" tiles for both floor and wall applications. Other sizes may be purchased based on availability.
