

GRANITE

Kashmir Gold

Country of Origin:

India

Description:

Kashmir Gold is a small-textured granite, that features large occlusions. The dominant color of the stone is pale yellow to golden bronze, and is sprinkled with medium-sized chips of burgundy mica. This stone has a definitive pattern that resembles a sandy desert. Swirls of a darker texture penetrate the base color.

Characteristics:

Compressive Strength: 29,585

Flexural Strength: 1,877

Absorption: 0.4

Density: 163.56

Note: Physical properties are provided for general comparisons. For specific applications and design engineering please contact your Lang Sales Representative for current ASTM testing data.

Applications:

Kashmir Gold is used for a wide range of architectural details, but most commonly for countertops and pedestrian surfaces. This granite is typically available in 3 cm or 1-1/8" thickness for use on kitchen and bath counter surfaces as well as paneled walls such shower stalls. It is also available in 1 cm or 3/8" thick, 12" x 12" tiles for both floor and wall applications. Other sizes may be purchased based on availability.
