

GRANITE

Santa Cecilia

Country of Origin:

Brazil

Description:

Santa Cecilia is an eye-popping, medium-grained granite. The predominate background color can range from a vibrant to pale gold. The field is brushed with wisps of charcoal and rust, and dotted with rosettes of deep burgundy.

Characteristics:

Compressive Strength: 13,891

Flexural Strength: 493

Absorption: 0.22

Density: 165.82

Note: Physical properties are provided for general comparisons. For specific applications and design engineering please contact your Lang Sales Representative for current ASTM testing data.

Applications:

Santa Cecilia is used for a wide range of architectural details, but most commonly for countertops and pedestrian surfaces. This granite is typically available in 3 cm or 1-1/8" thickness for use on kitchen and bath counter surfaces as well as paneled walls such as shower stalls. It is also available in 1 cm or 3/8" thick, 12" x 12" tiles for both floor and wall applications. Other sizes may be purchased based on availability.
