

GRANITE

Tropical Brown

Country of Origin:

Saudi Arabia

Description:

Tropical Brown is an even-textured, medium-grained granite. The predominate color is in the medium brown to olive green range. This color is accented by black chips of mica that are sometimes wrapped in ribbons of gold.

Characteristics:

Compressive Strength: 25,730

Flexural Strength: 1,735

Absorption: 0.12

Density: 165.80

Note: Physical properties are provided for general comparisons. For specific applications and design engineering please contact your Lang Sales Representative for current ASTM testing data.

Applications:

Tropical Brown is used for a wide range of architectural details, but most commonly for countertops and pedestrian surfaces. This granite is typically available in 3 cm or 1-1/8" thickness for use on kitchen and bath counter surfaces as well as paneled walls such shower stalls. It is also available in 1 cm or 3/8" thick, 12" x 12" tiles for both floor and wall applications. Other sizes may be purchased based on availability.
