

GRANITE

Venetian Gold

Country of Origin:

Brazil

Description:

Venetian Gold is a medium-grained granite with a golden hue. Areas of grey diffuse the overall appearance of the stone, while hints of black and white speckles and medium chips of burgundy-to-brown mica fill in the surface.

Characteristics:

Compressive Strength: 15,268

Flexural Strength: 1,029

Absorption: .24

Density: 164.76

Note: Physical properties are provided for general comparisons. For specific applications and design engineering please contact your Lang Sales Representative for current ASTM testing data.

Applications:

Venetian Gold is used for a wide range of architectural details, but most commonly for countertops and pedestrian surfaces. This granite is typically available in 3 cm or 1-1/8" thickness for use on kitchen and bath counter surfaces as well as paneled walls such shower stalls. It is also available in 1 cm or 3/8" thick, 12" x 12" tiles for both floor and wall applications. Other sizes may be purchased based on availability.
