

Ottawa® Buff Slabs

Description:

Ottawa® Buff Slabs are a light buff stone that is typically very flat. The faces tend to be rather square to the tops, which gives this stone a proud look, reminiscent of the Niagara Escarpment from which this stone originates. They are great for small groupings as a garden accent or for stacking into a casual wall.

Characteristics:

Thickness: 4" to 12" thick

Size: 6" - 1' x 1' - 2' depth and length

Color: Light buff to tan

Type: Limestone
