

SPLIT VENEER

Olen Valley® Split Veneer

Salt Creek® Blue Split

Shoreline® All Blue Split

Shoreline® All Buff Split

Shoreline® Blue Vein Split

Wyandotte® Split

As the name implies, Split Veneer is stone that has been mechanically split to the approximate size preferred for masonry walls. Pre-splitting reduces waste and labor on the job site.

Characteristics of a Split Veneer installation are horizontal course lines (or bed lines) and generally a formal, ordered appearance. A random pattern can also be used for a more informal pattern.

Please Note: All Full Split Veneer stone shown in this section are also available in Natural Thin Veneer.

Note: Natural stone products are likely to show variations in structure, veining, color, and thickness. Photographs provided are to be considered an approximate representation of the product rather than an exact representation of the product which will be provided.
