

VENEER INSTALLATION

- *Laying Patterns*
- *Joint Treatment*
- *Architectural Details*

The following pages are generally intended to provide examples of Veneer Stone Installations. Always consult with your stone mason as to the pattern and installation techniques. Each veneer installation is unique to that job allocation and limited only by ones imagination.

Note: Natural stone products are likely to show variations in structure, veining, color, and thickness. Photographs provided are to be considered an approximate representation of the product rather than an exact representation of the product which will be provided.
