

Description:

The clean lines and light buff appearance of this stone makes it a popular choice for designers who want to make a distinctive statement in the landscape. Primarily a light buff stone, some gray will be evident as well as occasional seam faces of brown and tan. It gets its smooth designation from the smooth clean face of the stone.

Characteristics:

Flat, irregular shaped stone, suitable for stacking

Thickness: Natural bed, 2" - 3" or 3" - 5"

Size: Split at 8" depth, random lengths

Color: Buff to whitish gray

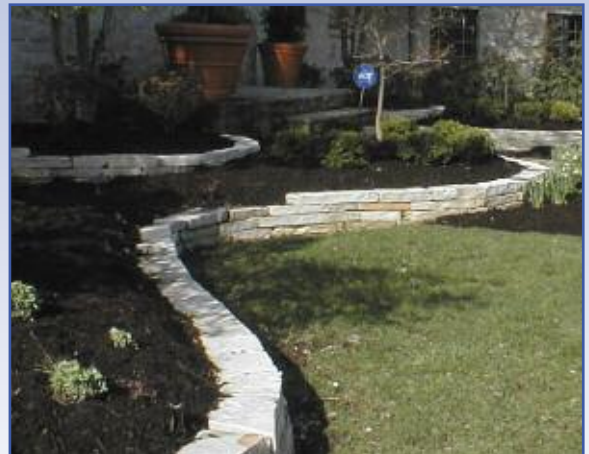

Coverage: 20 - 22 sf/ton
